Geological, hydrogeological, and lithological mapping of the territory; topographic and aerial photogrammetric surveys

Design, construction, revamping, management and maintenance of primary water treatment plants for civil and industrial use

Design, construction, revamping, management and maintenance of civil and industrial waste water treatment plants

Specific environmental surveys in the field of emissions into the atmosphere, acoustics, electromagnetism, water, waste, land, etc.

ECOGEO is a service company of **GEOLOGIS**, **ENGINEERING** and **INTEGRATED ENVIRONMENTAL TECHNOLOGIES** formed by geologists, engineers, architects, chemists, physicists, computer scientists, born in the 70s, with diversified experiences from the field of Engineering, to Earth Sciences, to the Environment.

ECOGEO operates through 10 main divisions.

The main activities are:

the creation of projects, studies, and consultation in geology, engineering and architecture, hydrogeology, mineral chemistry, environmental ecology, protection from corrosion, specific water treatment, and technological networks investigations in environmental acoustics, atmospheric emissions, and topographic surveys, application of information technology, and the security and hygiene of the environment. Available are physic-chemistry-bacteriology and geotechnic analysis laboratories, which provide the base support for our group's projects.

ECOGEO – Our hystory

News certifications

Ecogeo obtains OHSAS 18001 Safety Management System (now ISO 45001) and UNI EN ISO 14001 Environmental Management System certifications

2018

Red Tech is born

Ecogeo acquires the ReD Tech company, founded at the end of 2015 and one of the first Italian schools certified and authorized for the training of drone pilots (UAS. Unmanned Aircraft System).

2020

J.V. I.Wtech is born

Ecogeo Group establishes J.V. I.Wtech (Italian Water Technologies) present abroad

2022

Sole Sardo Energia is born

Sole Sardo Energia srl was born to respond to the demands of the energy market, particularly in Sardinia (Italy), in the wind, photovoltaic, agrivoltaic, geothermal and hydroelectric sectors

Sole Sardo Energia s.r.l.

2023

I.H₂Tech is born

Ecogeo establishes the Network Association I.H₂Tech (Italian Hydrogen Technologies)

2025

Ecogeo Lab s.r.l.

Ecogeo Lab srl is born from a split from Ecogeo srl. For market needs, the Ecogeo laboratory will be able to carry out analysis activities independently from the Ecogeo group

DH2-HUB s.r.l. is born

DH2-HUB s.r.l. was created to respond to market demands for the development, production and marketing of highly innovative systems to be applied to the creation of drone interchange stations, in particular with green hydrogen battery charging.

DH2-HUB s.r.l.
